About MARUMAN

"Made in Japan" is something we commit to without compromise.

Right from Maruman's inception, we have created our own original designs, commissioned production by our manufacturer partners, and offered original-design tile. Product size, shape and color are all planned in-house, and with the manufacturing facility, as well as involving the glaze manufacturers, we make prototype after prototype in order to create tile of greater appeal.

Our mission is to make creatively original and beautiful tile using Japan's artisanal skills.

For those who choose tile from Maruman, we would also like to help make the places where they live and work spaces of pleasantness and comfort.
